

# Indiana Society of Radiologic Technologists 2009 Student Page Program

This is an invitation for all students to consider becoming an active part of the state professional society through the Student Page Program.

The purpose of the ISRT Student Page Program is to foster knowledgeable students with insight into the activities, functions, purpose and goals of the Indiana Society of Radiologic Technologists and to increase student participation and involvement in your professional organization. This is your opportunity to prepare yourself as a future leader in our profession.

The Student Page Program offers students the opportunity to work closely with ISRT Board members in order to learn more about the activities, functions, purpose and goals of the Society. Students interested in becoming an ISRT Student Page must be a member of the ISRT and must be available to attend all ISRT Board of Directors meetings, the ISRT Annual Conference and all Business Sessions. The one year term of the Student Page would begin at the first ISRT Board meeting at the 2009 Annual Conference and would conclude at the close of the 2010 Annual Conference. A Student Page can extend their service a second term if they choose simply by submitting a letter of intent to the ISRT Board of Directors.

**\*\*NOTE:** If you are a 2<sup>nd</sup> year student, the Summer board meeting and the Annual Conference will typically occur after you have graduated. A Student Page (first or second term) who graduates may continue the program as a technologist until the end of their term or they may withdraw from the program upon graduation by submitting a written letter to the ISRT Board of Directors.

Interested students should submit an application to the ISRT Secretary to be received by August 15, 2009. If you have questions, the Student Page Manual is located on the ISRT website at [www.isort.org](http://www.isort.org). You can also contact Ashley Smith or Tracy Ferrara for additional information.

# 2009 STUDENT PAGE APPLICATION

The Indiana Society of Radiologic Technologists is committed to planning and providing leadership for the Student Page Program.

The purpose of the program is to foster knowledgeable students with an insight into the activities, functions, purpose, and goals of the ISRT and to increase the participation and involvement of students.

## STUDENT QUALIFICATIONS:

Student Page applicants must be a student of an accredited entry level program in the Radiologic Sciences. The Student Page must be available to attend all ISRT Board of Directors meetings, the ISRT Annual Conference, and all Business Sessions. The Annual Conference and Business Sessions occur at the end of the Student Page's term. A Student Page who graduates may continue the program as a technologist until the end of their term or they may withdraw from the program upon graduation by submitting a written letter to the ISRT Board of Directors. The Student Page applicant must be a current member of the ISRT at the time of application and must maintain ISRT membership while serving as a Student Page. **Please include a copy of your ISRT membership card.**
